Wesport is happy to release this catalog whose mix designs have appeal to a broad range of setting including products for commercial, hospitality and gaming projects. We are pleased to introduce three LED module systems usable for a many of the fixtures contained herein. Detailed information on these systems are available on pages 46-49.

While Wesport will continue to be an active participant in the production of custom lighting fixtures we are devoting equal time to the production, marketing and sales of our catalogued line.

Finish Options
Bronze GR06-Silver
Flat Black Bronze Rock

Illuminating Options
DM-MOD1: 7200 lumen dimmable module system

Supports
(4) 10 ft lengths of air craft cable

Front View
Scale: 1:8

Abbey1A line drawing
Find other Abbey drawings on our website
RICHMOND combines early American designs with elements of contemporary lighting such as contemporary art glass and LED illumination. The result is an intriguing mix of old and new. Hand fabricated in cold rolled steel, each RICHMOND fixture is chemically oxidized to bring out a unique color and depth and finished with a clear coat sealant.
**LS1-Saddle**

**Description**
Inspired by a mix of line forms and the intrigue produced by mixing color, texture and art forms our Saddle Sconce features an elongated saddle strap curved on its bottom side and offset from its supportive back plate. The omni directional light produced by the LED module is shielded by the saddle strap and is diffused by the jagged edged art acrylic on its sides.

**Dimension**
8” W 20” H 3” P

**Finish**
Chemical Black

**Illumination Options**
LS1: 1000 lumen module system

**Acrylic Diffuser Options**
Natural Horn       Hot Fudge
White Alabaster    French Shell
White Marble

---

**LS-STRAP**

**Description**
Wall sconce with wave like front metal strap accented with two flat caps. U shaped art acrylic diffuser. Open top and bottom.

**Dimensions**

Soft to the eye and rich in depth, EUROs are available in all white or in combination with frosted acrylics. The beauty of frosted acrylic sheeting is that they are semi-translucent and when used in lighting fixtures they can emit a very gentle diffused light. As outer shades in double shades against a white inner acrylic shade, they produce a remarkable depth and visual intrigue. Cleanable, light in weight and durable, EUROs have great applications in hospitality and health care settings.

Description
Contemporary LED wall sconce designed to accept numerous decorative acrylic lenses. Choose one of our subtle diffusers such as our White Marble or one of our bolder and colorful one such as our Tortoise Shell. ALINA can be mounted either vertically or horizontally.

Sizes
Alina H: 9" H 14" W
Alina V: 14" H 9" W

Lens Options
Any one of our art acrylic lenses found on page 50

Lamping Options
LS: 1800 lumen dimmable module system

Metal Finish
Brushed nickel

Alina V - Earth Marble
Alina V - Tortoise Shell
Alina H - New Mica
Alina H - White Marble
Inspired by the early works of the arts and crafts movement, Telluride is a mix of iron, art glass and art acrylic creating lighting fixtures that are rich in depth and bring a sense of warmth to design settings.
C54-2

Description
Two tier ceiling fixture
available as either a pendant
or flush to the ceiling.
Decorative cross bars around
the perimeter accented with either
art glass or art acrylic

Available Sizes
C54-2FL: Flush to ceiling 42” by 14” H shade
C54-2P: Pendant 42” square by 14” H shade suspended with (4) aircraft cables
Custom sizes available

Metal Finishes
Flat Black  Bronze  Bronze Rock

Illuminating Options
DM-MOD1: 7200 lumen dimmable LED module system

C52

Description
Rectangular pendant diffused with
either art glass or art acrylic, with
decorative crossbar perimeter

Available Sizes
31” L 14” W 8” H shade
Custom sizes available

Metal Finishes
Flat Black  Bronze Rock
Bronze  GR06 Silver

Illuminating Options
T824LED: (2) 900 lumen T8 LED

S100

Description
Wall sconce with art glass
or art acrylic diffusers

Available Sizes
14” W 8” H 4” P

Metal Finishes
Flat Black  GR06 Silver

Illuminating Options
MB: (2) medium base
GU24FL: (2) GU24 13 W CFL
**BALANCE2**

**Description**
Two tier 8 light chandelier with hand blown decorative square art glass

**Available Sizes**
55" W by 60" H

**Description**
Wall sconce with flat metal back plate

**Size**
7" W 16" H 5.75" P

**Available Finishes**
Flat Black  Bronce
GRO6 Silver  Bronze Rock

**Illuminating Options**
MB: (1) medium base socket
MGUI24LED: (1) dimmable 800 lumen GU24 LED
C42

**Description**
Rectangular pendant with vertical and horizontal cross bars and accented with a natural mica diffuser or art acrylic

**Available Size**
38" L 15" W 17" H 48" OAH
Custom sizes available

**Available Finishes**
Any of our standard powder coated finishes

**Lamping Options**
(4) Medium base sockets
(2) 24" T8 LED linear

P41

**Description**
Hexagon pendant available as flush mount or chain hung accented with art glass or art acrylic

**Available Size**
28"W 36" H
Custom sizes available

**Available Metal Finishes**
Any of our standard powder coated finishes

**Illuminating Options**
(4) medium base sockets
(4) 800 lumen GU24 LED
A collection of quick turn around all acrylic drum and box pendants available in white and colored acrylics

DM-MOD1

Description
DM-MOD1 is an LED module system consisting of (8) Fulham TM06LN13XX-001 installed to run in parallel and driven by (4) Fulham TITI1201000-20C drivers dimmable with a triac dimmer. Total system output 7200 lumens.

[Graphs showing color temperature and emission spectra]
Our LS Module system consists of (2) Fulham TM06LN1330-001 LED modules wired in parallel by (1) T1T1 120 1000-20C. System output 1800 lumens

**C - Single Channel Driver**

LED Modules connected in parallel

---

**SPECIFICATION SHEET : T1T1201000-20C IP62**

This Is An Original Product From Fulham Co., Inc

**Description** : 1000mA, 20W Constant Current LED Driver with Triac dimming. Dedicated input range of 120V. One, 1000mA independent, constant current output channel.

**This Driver Will Operate The Following LED Modules:**

Any LED module designed to accept constant current input up to 1000mA and has a voltage range between 11V and 20VDC.

**ELECTRICAL DATA**

Our LS1 LED system utilizes (1) Fulham TM04LN40XX-002 driven by (1) Fulham dimmable TCD 11200650-18C driver. System about 1000 lumens

A - Single Channel Driver, 1 LED Module connected

SPECIFICATION SHEET: TCD11200650-18C
This Is An Original Product From Fulham Co., Inc.

Description: Independent direct current power supply. High efficiency and reduced weight and size. Constant output current; Dimming

This Driver Will Operate The Following Led Modules:
LED modules up to 650mA. Max. Output Power 18W
