

ASPEN

ASPEN

A WALL SCONCE COLLECTION FROM WESPORT LIGHTING

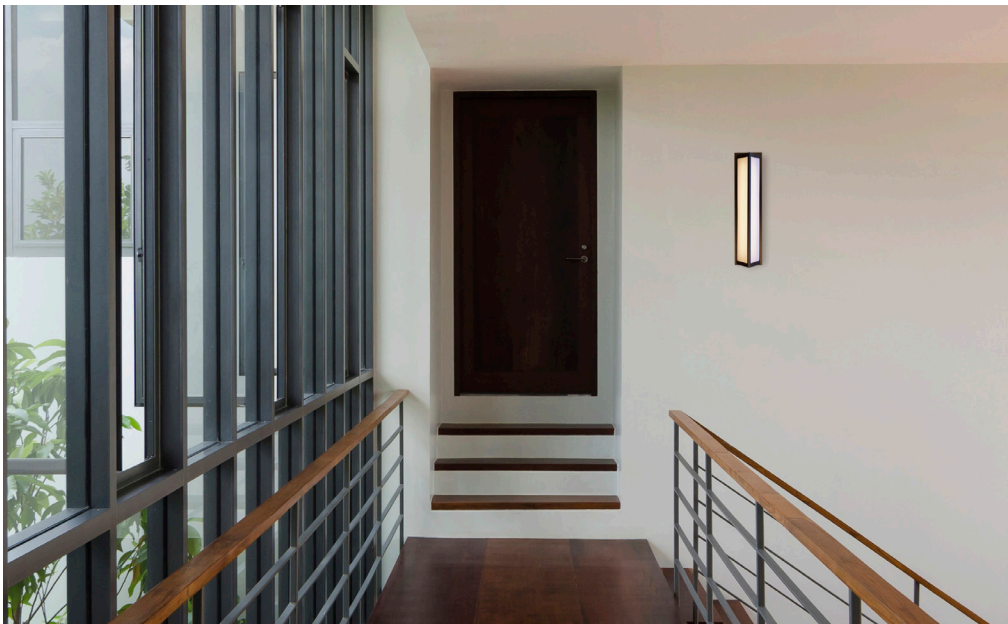

ASPEN showcases a collection of transitional wall sconces with a slight mix of contemporary craftsman design.

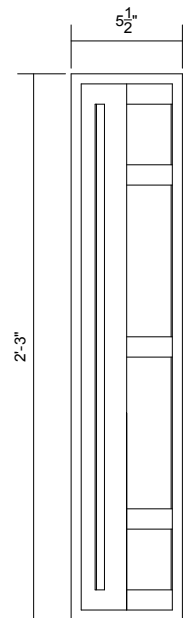

All but AS-103 are available in tall and short versions.

Fabricated out of steel and powder coated to either a bronze or black finish, Aspen fixtures are suitable for both interior and damp locations.

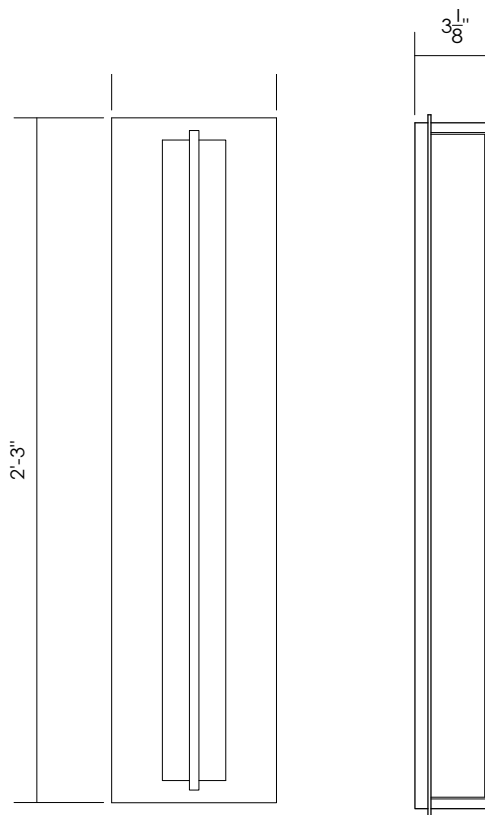

All short Aspens are LED module illuminated with 450 lumens, 0-10 V dimming. Tall versions are illuminated with either 900 lumens of T8 LED bulbs or 900 lumens of LED module.
