

SM MODULE SYSTEMS

SM MODULE GENERAL PRODUCT INFORMATION SHEET

Integrated LED array and drivers by Fulham Electronics

Description:

Our SM modules are 9 inch round integrated driver and LED board systems designed to illuminate ceiling mounted fixtures with sizes ranging from 12” to 36” in diameter. These module LED array and drivers combination are available in 3000K, 3500K and 4000K with a standard CRI of 80 or better with upgraded options of 90 CRI. All our SM Modules are driven with universal 120-277 V drivers and all with 0-10 V dimming.

Environmental Rating:

Modules are rated for dry locations unless optional conformal coating is requested. Conformal coating is an acrylic based and rated for Environmental and Moisture protection per IPC-CC-830

Warranty:

5 year warranty from manufacturing date when used in accordance manufacturer conditions of installation and usage.

Specification Sheets:

The information contained in this page serves only general product description. Please call us for detailed specification sheets on these products.

MODULE OUTPUTS AND WATTAGE REQUIREMENTS

Wattage	Color Temps	Lumen Output	CRI	Dimming
21 watts	3000k	2189 lumens	>80 CRI	0-10V
21 watts	3500k	2250 lumens	>80 CRI	0-10V
21 watts	4000k	2354 lumens	>80 CRI	0-10V
25 watts	3000k	2750 lumens	>80 CRI	0-10V
25 watts	3500k	2830 lumens	>80 CRI	0-10V
25 watts	4000k	2950 lumens	> 80 CRI	0-10V
39 watts	3000k	3950 lumens	>80 CRI	0-10V
39 watts	3500k	4075 lumens	>80 CRI	0-10V
39 watts	4000k	4250 lumens	>80 CRI	0-10V
